

SPA FACT SHEET

AYANA Resort and Spa BALI

OVERVIEW

Set in AYANA Resort and Spa's beautifully landscaped tropical gardens, Thermes Marins Bali is the only Thermes Marins spa in south-east Asia. The extensive facility incorporates spa villas, treatment rooms, beauty salon, reflexology and relaxation lounge, steam and sauna rooms and the world's largest Aquatonic® Seawater Jet Pool. The most exclusive venue for an indulgent wellbeing experience is Spa on the Rocks, consisting of two treatment villas anchored on natural rocks amidst the Indian Ocean. The spa complex also encompasses an 18-hole golf putting course, three floodlit tennis courts, Jacuzzi Grotto, cold plunge pool, gym, spa boutique, Spa Café and Honzen Japanese restaurant.

In addition to the unique wellbeing center at AYANA, there are six roof-top treatment rooms at sister hotel RIMBA Jimbaran Bali. The extensive spa menu offers both ancient Eastern healing therapies and modern European treatments, from Thalassotherapy to unique signature treatments developed exclusively for Thermes Marins Bali, and non-surgical cosmetic procedures such as anti-ageing facials and body slimming. The highest quality products are used including La Mer, Thermes Marins and LPG technology.

- Asia's Leading Family Resort 2014-2015 by World Travel Awards for RIMBA
- Indonesia's Best Hotel Spa 2015 by World Spa Awards

SPA ON THE ROCKS

Perched on natural rocks just below the resort's towering cliff face are two luxuriously-appointed spa villas with panoramic views of the Indian Ocean. Treatments at Spa on the Rocks are exclusive to this stunning location, and created to match the breathtaking setting and uninterrupted views across the sea and southern coastline of Bali. Only the most exclusive treatments are available, for a maximum of 6 couples daily: Lava Me Tender; a wellbeing ritual drawing on the healing properties of natural volcanic lava, Global Anti Aging; a top-to-toe treatment to restore vital minerals to the skin.; and "Diamond Miracle," the ultra luxurious treatment using the world's most precious, luscious elements: diamonds, silk, pearls and champagne.

RIMBA JIMBARAN BALI BY AYANA

AYANA's sister hotel RIMBA Jimbaran Bali offers six roof-top treatment rooms and fitness center to expand upon the main spa at AYANA. Enjoying stunning views over the surrounding forest and as far as the ocean beyond, the roof-top treatment rooms have been designed as a cocoon of relaxation, maximizing the tranquil eco environment to restore your sense of balance. AYANA's signature spa treatments are offered at RIMBA, so guests may choose the ocean setting of AYANA or the forest setting of RIMBA, or even better, experience the unique ambience at both. A complimentary shuttle operates between RIMBA Lobby and AYANA Lobby, Spa and Kubu Beach, and guests may charge to their room at either hotel's facilities.

THALASSO THERAPIES

One of the world's largest Aquatonic® pools is directly supplied from the underlying Indian Ocean and warmed to optimum temperatures to provide the curative and preventative properties of seawater. Hydrostatic pressure allows effortless exercise through 12 hydro massage stations via the pool's therapeutic jet streams, micro-bubbles and geysers, with each station targeting a different part of the body to boost circulation and lymphatic drainage, and alleviate tension areas. In addition, the Thalassotherapy treatment rooms feature the latest Thalasso equipment.
