## VENUES

### SKY

Seemingly floating 35 meters above the Indian Ocean, the dramatic open-air design features ceremonial steps and multi-tiered fountains that ascend to a cantilevered deck extending 3.5 meters out from the cliff, where couples feel on top of the world as they exchange vows at eye level with the horizon. With capacity for up to 80 people seated for a ceremony on the cliff-edge deck and up to 1,000 for a standing cocktail party in the surrounding gardens.

### TRESNA CHAPEL

The dramatic all-glass Tresna Wedding Pavilion majestically towers on the cliffs above the Indian Ocean, providing uninterrupted floor-to-ceiling views of Bali's magical sunsets. Inside, a glass aisle covers a flowing stone-lined river, which leads to a striking glass altar for your exchange of vows.

### ASTINA CHAPEL

Glass is also a key feature at Astina Wedding Pavilion, noted for the symmetry and balance of its cutting-edge design fronting the ocean. Seemingly floating on reflective pools and aligned perfectly with the horizon, the air-conditioned chapel is supplemented by two spacious Bridal preparation villas.

#### AYANA VILLA

A wedding, reception and honeymoon, all in one magical location. Offering the ultimate in privacy, comfort and cliff-top glamor, the resort's presidential three-bedroom villa is set on 3000sqm of private, ocean-front land. Exchange vows at the four-pillar Wedding Gazebo on the cliff-edge, before moving inside or poolside for a lavish reception party that starts the honeymoon in style.

#### ASMARA GAZEBO

Declare your love in royal style at Asmara, a 350-year-old Javanese joglo set amongst fragrant tropical gardens looking out to the ocean. Enter through an intricately carved wooden door to the private garden and open-air ceremonial pavilion, which is traditionally featured in palace weddings in central Java.

#### BALE KENCANA

Another stunning garden wedding venue, this traditional Balinese pavilion is secreted behind ornate volcanic and limestone walls. Surrounded by a tranquil pond and natural stone paving, the gazebo provides an elevated open-air stage with 180-degree ocean views.

#### CHAMPA GARDEN

Champa Garden, an avant-garde 20,000sqm multifaceted outdoor event space, was designed by Indian architect Karan Grover to host grand scale wedding ceremonies and receptions for up to 3,000 guests.

#### CHANDRA SURYA

Catering for outdoor celebrations and dinners under the stars, Chandra Surya comprises landscaped grass areas and courtyards, located on the cliff's edge or poolside with breath-taking ocean views.

#### ROCK BAR

Taking the concept of "on the rocks" to a whole new level, this innovative open-top bar is perched 14 meters above Jimbaran Bay on a rocky outcrop at the base of towering cliffs, and accessed via an inclinator. A 'must-do' for visitors to Bali, Rock Bar is a jaw-dropping venue for pre-wedding events and after-parties.
